POWER YOUR BACKUP GENERATOR WITH SUPERIOR STANDBY

Imagine a world where consistent power lets you focus on what matters. Our **Superior Standby Program** is a reliable solution that keeps your home running smoothly during power outages. Confidence starts at home.

WHY CHOOSE PROPANE?

Propane-fueled residential standby power generators keep your home running, providing assurance against power outages.

Propane gives you all the power of gasoline or diesel, with less emissions, less maintenance, and no risk of a spill.

PROPANE BENEFITS

Reliable Power: Rest easy knowing that your home is protected by a dependable standby power solution fueled by propane.

Convenience: Say goodbye to the hassle of frequent refueling. Propane offers a long-lasting fuel supply, keeping your standby generator running when you need it most.

Environmentally Friendly: Reduce your carbon footprint with clean-burning propane, contributing to a greener future for generations to come.

WHAT WE OFFER

Superior Standby's monthly charge covers the following:

TANK RENTAL

WIRELESS TANK VOLUME SENSOR

AUTOMATIC PROPANE DELIVERIES TO ENSURE
YOU HAVE ADEQUATE RESERVES PRIOR TO EXTREME WEATHER
EVENTS THAT MAY CAUSE POWER OUTAGES¹

mySUPERIOR™ ONLINE PORTAL & MOBILE APP

Our Certified Partner Network will handle the installation, ensuring it's done safely and correctly. During extreme weather events, we manage propane deliveries as required to ensure the safety and well-being of our partners, employees, and customers.

MAKING THE MOST OF YOUR PROPANE TANK

A permanently installed standby generator connected to a propane tank (which will be correctly sized by Superior Propane) can serve as a reliable back-up power source during outages. On average, a standby generator uses 2 to 3 gallons of propane per hour. Depending on your power usage during an outage, a full 500-gallon propane tank could run a standby generator continuously for about five days without needing a refill, making it a suitable option for geographical areas with frequent or prolonged power interruptions.

Depending on your power usage during an outage, an equivalent standby generator connected to two 420-pound (120-gallon) propane tanks could run continuously for about two and a half days without needing a refill.²

420-LB. PROPANE CYLINDER

HEIGHT 4'-4.5" | DIAMETER 30"
LPG CAPACITY 375L+ PER CYLINDER

500-GALLON PROPANE TANK

HEIGHT 3'-10" | LENGTH 9'-10"
DIAMETER 38" | LPG CAPACITY 1514L+

*Dimensions and capacities are approximate and may vary slightly.

MANAGING PROPANE LEVELS WITH WIRELESS TANK SENSORS DURING GENERATOR STANDBY TESTS

Generators equipped with standby test functions are essential for ensuring reliability during power outages. Standby tests simulate real-world scenarios, allowing the generator to start up and operate as it would during an actual power outage.

During these tests, the generator consumes some propane, which can deplete the level in your tank(s).

We utilize wireless tank sensors to monitor your propane tank levels in real-time, allowing us to account for the propane used during standby tests and ensure that you have a sufficient supply of propane when you need it.

PROACTIVE SAFETY MEASURES

Ensuring Reliable Propane Delivery During Extreme Weather Events

Our top priority is the safety and well-being of our customers and personnel. During extreme weather conditions, such as severe cold or storms, we strive to deliver propane while ensuring it is safe and feasible to do so. To minimize the impact of these conditions, we aim to automatically schedule deliveries before forecasted extreme weather events start.

This proactive approach helps to ensure that our customers have uninterrupted propane supply when they need it most, while also safeguarding the health and safety of everyone involved in the delivery process.

*“OUR DELIVERY ARRIVED JUST BEFORE THE STORM HIT.
MY NEIGHBOURS, WHO USE A DIFFERENT SUPPLIER,
DIDN'T RECEIVE THEIR DELIVERY UNTIL AFTER THE STORM.
YOUR DELIVERY STAFF ARE UNDOUBTEDLY THE BEST!”*

HAPPY SUPERIOR STANDBY CUSTOMER

WHY CHOOSE SUPERIOR PROPANE?

PROPANE MADE EASY

We offer products like mySUPERIOR™ and SMART* Tank™ wireless monitoring to give you full control over managing and forecasting fuel needs 24/7.

PROVEN EXPERTISE

We are the propane experts—fueling homes and businesses of all sizes across Canada since 1951. We provide solutions with a focus on safety and compliance.

UNMATCHED RELIABILITY

We promise secure propane supply and an unmatched delivery network to keep your home, business, site or fleet running smoothly with no downtime.
